- The 837 i RA bitholding screwdriver with a ratchet integrated in the handle ensures fast and safe working
- 817 VDE handle for Kraftform Kompakt interchangeable blades
- VDE blades (157 mm length) with practical spinning function, anti-roll protection and Take it easy tool finder: colour coding by profile and laser-engraved size indication
- 1x Knipex needle-nose combination pliers, 185 mm long
- Individually tested tools as per IEC 60900
- In a robust folding pouch
- Compatible with Wera 2go

21-piece tool set for working in a tensionless state and working at the approved voltage of 1,000 V. One 837 i VDE bitholding screwdriver with ratchet functionality, one 817 VDE bladeholding screwdriver; each for Wera VDE blades; 14 VDE blades (each 157 mm length) with reduced blade diameter (items Kraftform Kompakt 60 i Take it easy 0.4x2.5 and Kraftform Kompakt 67 i Take it easy TX 10 standard blade diameter), so that even low-lying screw and spring elements can be easily reached and operated. With Take it easy tool finder: colour coding by profile and laser-engraved size indication - for quick and easy identification of the required tool. Individually tested tools as per IEC 60900 at 10,000 V for safe working at the approved voltage of 1,000 V. 1x Knipex VDE 08 26 185 needle-nose combination pliers for easy cutting thanks to the high-reduction power joint; with cutting edges for soft, medium-hard and hard wire. Milled groove on the handle for secure holding and drawing of small workpieces such as nails, pins and bolts. Chrome-plated for better rust protection, with insulated multi-component handle sleeves. In a robust belt pouch. The textile box features a fleece zone at the back. Using the provided self-adhesive hook and loop fastener strips, the textile box can be attached to the Wera 2go components. Or to the wall, shelf or workshop trolley.

**Individually tested**

Each Kraftform Kompakt VDE set has been tested individually at 10,000 volts, in accordance with IEC 60900. This ten-times-higher testing load guarantees safe working at their maximum permitted load of 1,000 volts.

**The 837 i RA bladeholding screwdriver with ratchet functionality**

The integrated ratchet with fine toothing (40 teeth and a return angle of 9°) eases and accelerates screwdriving without having to reposition the tool.

**The handle/blade system – Kraftform Kompakt VDE**

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

**Easy change**

The Kraftform Kompakt VDE blades can be replaced simply by pulling down the yellow ring on the handle.

**PlusMinus screwdrivers**

For the use in terminal blocks, control cabinets, switches, relays, sockets etc.

**VDE interchangeable blade with reduced shaft diameter**

Reduced blade diameter with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated, individually tested as per IEC 60900.

**Take it easy**

The Kraftform Kompakt VDE blades are equipped with the Take it easy tool finder. Colour coding by profile and laser-engraved size indication make it easy to identify the required tool quickly.

**Hexagonal anti-roll feature against rolling away**

The Kraftform Kompakt blades come with an anti-roll protection. The hexagonal shape hinders the blade from rolling away annoyingly at the workplace.
